

LOCKABLE WEATHERPROOF FRAME

ENSURE YOUR OUTDOOR POSTERS ARE NOT ACCESSED BY UNAUTHORIZED PARTIES

The weatherproof wall mountable poster frames have been manufactured with silver anodized finish aluminum profiles and inner rubber gaskets to achieve resistance from unfavourable weather conditions - this may include rain, dust, or other corrosive agents. The weatherproof outdoor frames have been specifically designed with an internal weather stripping facility that achieves the highest quality adhesive seal to guard against unwanted water damage and other harsh environmental conditions. These locking poster boards have been produced with the utmost consideration to safety, security and protection of your printed posters. Not only have the lockable snap frames been produced with tailor-made weather resistant design elements, but the aluminium display unit has been manufactured with a high security lock and key to guarantee safety of your printed posters. The lockable poster frame is simple to use with flip open sides. The four sides of the lockable frame open sequentially. The last profile is held in place with a screw on top that can be opened with its key. All you need to do is unlock the frame with the special allen key that is included with the product and snap open all four sides. Then you can place your printed poster and the plastic, clear non-glare cover over it and snap close. It only takes seconds to update your printed posters. This system ensures your poster is never accessed by unauthorized third parties. Clear, plastic, non-glare cover prevents glare as well as keeps your poster away from dust and dirt.

KEY SELECTION ATTRIBUTES

- Anti-glare poster cover sheet.
- Ideal for various poster size
- Custom sizes options ranging from a minimum of 20"x30" to a maximum of 40"x60" landscape.
