Installation Considerations

Q Ropes are packed unassembled in 2 boxes with an easy-to-understand instruction sheet & fixing elements. See info chart for pack sizes. Easy to assemble. One set includes a heavy steel Ø14.09" circle base with 13.23 lbs weight and steel profile post with 38.39" total system height and a Ø2.56" knob-top suitable for hooking twisted ropes on 4-ways; screw and spanner for installation. Twisted design barrier rope is not included in standard package, should be ordered separately. Sold as individual components. The heavy duty steel base with rubberized bottom provides stability.

Design Considerations

Highly durable steel Q Rope, crowd control system, equipped with a twisted design barrier rope. Twisted design barrier rope looks high quality and professional especially for protocol entries for governmental agencies and public enterprises. Portable and easy to assemble and disassemble with ergonomic and contemporary design. 4-way pole provides flexibility to create optimum pedestrian flow in high traffic areas like airports, cinema halls, hotels, museums and more. Just unhook the rope from one station to connect to the other.

Cleaning and Disinfecting

Clean your displays, with damp microfiber clothes, rinsed with simply water or warm, soapy or gentle shampooed water. Avoid using vinegar, abrasive, acidic, alcohol-based or heavy cleaners or cleaners containing Ammonia. Only after cleaning the product, if needed, simply apply disinfectant or sanitizer that is in compliance with your local guidelines and regulations.
