WEATHERPROOF FRAME

EASY TO PRESENT YOUR ADS IN DIFFICULT WEATHER CONDITIONS

Weatherproof Frames are a versatile and affordable option for presenting advertising content and other forms of public communication in an outdoor environment. They are easy to use and easy to poster when the sides flip open. The natural silver-anodized finish aluminium frame, also available in different RAL colors is weather resistant and is a great display to exhibit signage outdoors.

As an outdoor display unit, each frame has been designed to achieve maximum weather resistance and protection from other corrosive agents. The snap frame has been manufactured with a sturdy aluminium border and also features inner rubber gaskets to achieve resistance from unfavourable weather conditions, including rain and dust. An additional feature of the outdoor frame offering protection to images is the anti-glare transparent cover sheet. This protective overlay enhances graphic visibility, maximising interest and customer engagement with your prints.

Once the poster display is mounted into the wall it will assist all future advertising and promotional needs through the simple and easy rotation of alternative posters fastened by snap frame.
